

Life360: Parental Consent Form

Children under the age of 13 are not permitted to use the Life360 application without express written permission of a parent or legal guardian.

A parent or guardian must submit this form via mail or email scan to enable a child under 13 to create an account on the Life360 Service. Alternately, a parent or guardian may provide consent electronically through the parental verification feature in the Life360 App. Life360 takes special precaution to protect the privacy of our younger users. The Life360 Service is intended to be used by children under 13 only with significant parental involvement and consent.

Please print and complete this form and return by mail or electronic scan to the address below.

By mail: Life360 539 Bryant Street, #402 San Francisco, CA 94107

By scan and email: privacy@Life360.com

By enabling your child to create a user account and permitting your child to use the Service, you expressly agree to the practices described in the Life360 Children's Privacy Policy and you consent to the collection, use, and disclosure of your child's personal information as described therein. If you do not agree to the collection, use and disclosure practices described in the policy, do not permit your child to use the Service.

Please confirm the name and contact information for the child for whom you would like to create a Life360 account:

First Name of Child (required): _____

Mobile Phone Number of Child's Phone (required): _____

Email Address of Child (optional): _____

I have reviewed the Life360 Children's Privacy Policy available at www.life360.com/privacychildren and I understand and provide consent for Life360 to collect, disclose and retain my child's personal information as described in this policy. I understand that by submitting this form, I am providing my consent for my child to participate in all aspects of the Life360 Service, including posting messaging and sharing personal information and geolocation data with third parties and with other Life360 users that are members of the child's Circles.

By submitting this form, I confirm and agree:

- I am the parent or legal guardian of this child

- I understand that my child will be able to share real-time location information with other Life360 users and I agree to exercise oversight of my child's use of the Service.
- I have read and agree to the practices described in this Children's Privacy Policy and I consent to the collection, use, and disclosure of my child's personal information as described therein.
- I understand that I have the right to request to review or have deleted my child's personal information and may withdraw consent for the Service to collect any further personal information from the child.

Full Name of Parent/Legal Guardian: _____

Relation to Child: _____

Life360 Login ID of Parent/Legal Guardian, if applicable: _____

Parent/Guardian Email Address: _____

Signature: _____

Date: _____

1. CHILDREN'S PRIVACY POLICY

Life360 takes special precaution to protect the privacy of our younger users. Life360 does not knowingly collect personal information from children under the age of 13 (a "child") without verifiable consent of a parent or guardian and the Service is intended to be used by children under 13 only with significant parental involvement and approval.

If Life360 learns that we have inadvertently collected personal information of a child without parental consent, we will take appropriate steps to delete this information. If you are a parent or guardian and discover that your child under the age of 13 has a registered account with our Service without your consent, please alert us immediately by emailing privacy@life360.com so that we may delete that child's personal information from our systems.

By enabling your child to create a user account and permitting your child to use the Service, you expressly agree to the practices described in this Children's Privacy Policy and you consent to the collection, use, and disclosure of your child's personal information as described herein.

Setting up a child account. If a parent wishes to add a user who is under 13 to the Service, we request the Parent provide verifiable consent through one of several methods, such as by verifying the Parent's driver's license or by submitting a parental consent form (available [here](#)) via mail or email. The child will then be able to participate in most aspects of the Life360 Service.

Personal information we collect. We take special precautions to collect only as much information as is reasonably necessary for the child to use the Service. As further described in our Privacy Policy above, we collect various types of personal information from all users of the Service. For example, we collect profile information (username, email address and mobile phone number) when a user creates an account and other types of personal information the user may provide during the course of using the Service, such as a nickname, favorite location, and emergency contact information. We collect information about a user's device (e.g., IP address, device type/model/manufacture / operating system, and a unique ID that allows us to identify the browser, mobile device or account, such as a UDID, IDFA, Google AdID or similar) as well as certain usage information about the use of the Service (for example, whether the user opens emails) and we collect analytics data. We collect geolocation data through the device IP address, WiFi, Bluetooth and GPS coordinates available through the user's mobile device and through technologies and sensors that may be nearby. We also collect driving event data through sensory and motion data sensors in the user's mobile device (e.g., data from a smartphone's gyroscope, accelerometer, compass and Bluetooth) in order to calculate and detect driving events such as hard breaking, speeding and crash detection. Please review the section of our Privacy Policy called "**How We Collect and Use Information**" to learn more.

Information sharing. Life360 may share or disclose a child's personal information our third party vendors, service providers and business partners as described in our full privacy policy, including, for example, our data partner Arity which helps us analyse and detect driving behaviour data. However, we do not use or share personal information collected from the accounts of children under 13 for marketing or advertising purposes, nor permit our third party partners to collect and use such information for advertising purposes. Please review the section of our Privacy Policy called "**Sharing of Your Information**" to learn more about how we share information with our vendors, partners and others.

Sharing information with other Life360 users. The child's profile information and location will be shared with other members of the Family Circle and any other Circle the child joins. Please note that if your child joins any other Circles, the child will be able to share his or her location with other members of that Circle and may exchange messages with those Circle members. **You are responsible for monitoring your child's account and location-sharing activity through the Service and for blocking or permitting location sharing features.**

Your Choices.

Contact Us. The Parent has a right to request to review or have deleted the child's personal information and may withdraw consent for the Service to collect any further personal information from the child. Please contact us at privacy@life360.com to request to review and/or delete any personal information we have collected from the child, or to withdraw permission for Life360 to collect any additional information from the child. Please also review the section of the Privacy Policy called "**Your Choices About Your Information**" to learn more about how you may control or turn off certain data collection and sharing features of the Service.
